Prefabricated Caravans

Alatassi for prefabricated caravans is pleased to introduce the result of the latest Research and development in the field of steel structure and insulated buildings. The company started to manufacture caravans and multi-storey caravans that could be assembled side by side to obtain large horizontal spaces. The caravans are available with different dimensions and can be supplied with full furniture. All our products are made according to the highest international standards and resist the worst harsh weather conditions of cold, heat, wind, and rain.

The caravans are shipped to site with full equipments and furniture so it would be ready to use immediately. As for large buildings, they are shipped in sections and then they are assembled at site in a short time.

The buildings can be supplied with air conditioners, electrical panels and wirings, water piping, water heaters, and a sewer system in a way that ensure easiness in use and elegance in appearance.
