Al Atassi

For Manufacturing & Trading Ltd

www.alatassi-group.com

COMPANY PROFILE

BRIEF HIGHLIGHT :

Our company is specialized in the field of refrigeration. Its main business is to supply the market with commercial and industrial refrigeration equipment for cold and freezer rooms for storing fruits, vegetables, meats, chickens … etc. Also, we act as a wholesaler as we supply small traders, small air conditioning and refrigeration factories and contractors with all their requirements such as copper, filters, controls, compressors … etc. Accordingly, our goal is to reach the highest expectation of our customer based on quality, understanding and reliability. We believe that these underlying principals are the most important tools to meet customer's demand, while the same mentioned principals have made us one of the most successful organizations in our field .

The entire ideology of our business provided us to be on the highest levels among the other similar establishments. After all we do not accept any lower level.

We developed our industry business rapidly so we can cover the market needs starting with insulation sandwich panels, prefabricated canteens, Caravan, Houses, transport refrigeration in both divisions producing boxes for trucks and trailers and installing refrigerant units, ending with condensing units, Evaporators, and turnkey projects.

OUR STAFF:

Al Atassi for Manufacturing & Trading Ltd. Staff is very well trained and qualified members who can meet every customer requirements and develop their business needs accordingly. Our team of professional engineers and technicians are fully experienced in selling, supporting, maintaining and installing our products. The team has been working closely with large organizations, both in public and private sectors, in order to provide them the latest products available to fulfill their needs.

Marketing is one of the most represented departments in our company; their staffs conducts studies of local and international markets as well as follow–up the latest inventions on what is related to our field. Furthermore, the marketing Department also studies the status of the market, development and expectation in relation to new needs and future expectations.

Our sales engineers are specialized in assisting customers by conducting studies of the customer needs

Their aim is to offer the optimal solutions which are appropriate technically as well as economically

To do so the company uses computer's programs specialized in cooling and refrigeration and aided studies in order to find the most appropriate Smart Solution.

MANUFACTERING
Doors

Swing Doors, Hinged Doors And Sliding Doors

MANUFACTERING
TRUCK BOX

Transport Refrigeration

- Freezer Boxes and Freezer Cooling Units
- Chiller Boxes and Chiller
- Dry Boxes
- Water and Beverage Transportation Boxes

Our production is divided in two sectors :

* Finished and installed boxes for the Syrian market starting from 2 meter length and up to 7.5 meter length. We produce all types of boxes such as:

- Refrigerated boxes.

- Freezer boxes.

- (Dry boxes (non refrigerated boxes.

- Beverage delivery boxes such as Pepsi or and many other brands
- Insulated Vans.

* Semi Finished boxes (Kit) ready to be installed .this type of product is mainly for export.

MANUFACTERING
PREFAPRICATED CARAVAN

Prefapricated caravan

Alatassi for prefabricated caravans is pleased to introduce the result of the latest Research and development in the field of steel structure and insulated buildings. The caravans are available with different dimensions and can be supplied with full furniture. All our products are made according to the highest international s tandardsand resist the worst harsh weather conditions of cold, heat, wind, and rain

The caravans are shipped to site with full equipments and furniture so it would be ready to use immediately. As for large buildings, they are shipped in sections and . then they are assembled at site in a short time

The buildings can be supplied with air conditioners, electrical panels and wirings, water piping, water heaters, and a sewer system in a way that ensure easiness in use and elegance in appearance

Prefabricated buildings are used as temporary work places for Oil and Contracting Companies, where they are used as temporary Houses for Workers and Offices for Engineers

Prefabricated caravans can be used as Guard Rooms Sales Booths, WC, Lockers, Kitchens, Mobile Restaurants, and Temporary Promotional Caravans

MANUFACTERING
Heat transfer Coils

GENERAL INFORMATION

ALATASSI coils are produced with copper tubes and continuous plates of aluminum fins

The fins are manufactured by a very advanced machine, which provides the fins with collars .the fins have a gauge collar that provides an exact spacing . between them

The contact between the tubes and the collars is obtained by mechanical expansion of the tubes which provides a high heat transfer between the primary fluid and the air .

All the coils undergo a leak check which is carried out with pressurized dry air finally all coils are carefully cleaned

ALATASSI manufactures heat exchanger coils for commercial and industrial applications where heat transfer is required between air and primary fluid such (as:(refrigerants-water-steam-etc

ALATASSI heat exchanger coils used in the following : applications

- Gravity and forced ventilated evaporators .
- Cold room evaporators .
- Air conditioning system evaporators and condensers .
- Air condensers .
- Cold water coils .
* Hot water coils .
- Steam coils .
- Oil cooling units .
- Transportation air conditioning systems .
